### **Crystal Concierge Meets Today's Lifestyle Needs** **Valet service debuts in Morris, Sussex and Orange County, NY**

Vernon resident, Ann Marie Miskewicz is no stranger to the rigors of modern day life. A demanding career, with frequent travel, Miskewicz had little time left to run errands and take care of life's most basic tasks: banking, dry cleaning, a trip to the pharmacy, and how could she possibly wait for a repairman or plumber without losing a day's work?

Recently, Miskewicz packed up and left the corporate world to provide the services to others that she felt were lacking in her life as she juggled a corporate career with the simple need to relax on the weekends. Hence, she launched Crystal Concierge LLC, serving New Jersey's Morris and Sussex Counties, as well as nearby Orange County, NY.

"When my work week finally ended, I did not want to spend all of my free time running errands," Miskewicz explained the impetus behind Crystal Concierge. "I kept thinking that there must be someone who can do some of these things for me while I concentrate on work and personal tasks." Miskewicz's service, however, is not limited to simply running errands for people. "We have the ability, experience and staff to handle a multitude of tasks designed to make the average person's life just a little easier."

Among the services Miskewicz offers is, home organizing, furniture and product assembly, event/party planning, including providing a wait staff and recommending catering services. In addition to basic errands such as running to the bank, dry cleaners, and post office, Crystal Concierge will handle personal shopping, internet/library

research, take your car to DMV, coordinate household repairs and even care for your pets.

“We are a full-time concierge. Our services are first class and designed to enhance the quality of our clients’ lives and create something that is almost non-existent today: *free time*,” Miskewicz said. “And, this is not restricted to working people. Stay-at-home moms can’t always get basic errands done, especially new moms who are trying to schedule their day around an infant or toddler.”

Miskewicz added that anyone with elderly parents in the area can also count on Crystal Concierge to fill prescriptions and make home deliveries to those who cannot get out. “Sometimes it is just comforting to know that someone is looking in on an elderly relative during the day,” Miskewicz said.

Crystal Concierge will soon be launching its website, [www.crystalconcierge.com](http://www.crystalconcierge.com) which gives a complete list of all of its services. For information, pricing or gift certificates, Miskewicz can be reached at 973-827-6024 or [crystalconcierge@earthlink.net](mailto:crystalconcierge@earthlink.net)
